

Essential Guidelines for Barrier-Free Washroom Installation

Accessibility & Reach Standards

Optimising Forward Reach:
Mount operating features above the floor level to enable easy access for wheelchair users.

The 10cm Protrusion Rule:
Objects protruding 10cm (4") or less into walkways can be mounted at any height.

Detectable Leading Edges:
Items mounted 68cm (26") or lower from the floor may protrude any amount.

Mounting Heights & Protrusion Limits:

Object Type	Mounting Height	Max Protrusion
Standard Protruding	Any height	10cm (4")
Detectable Objects	68cm (26") or less	Unlimited

Installation & Safety Compliance

Mandatory Professional Installation:
All wall-mounted products must be installed by qualified tradespersons to ensure structural integrity.

Local Code Adherence:
Installers must consult and comply with specific local building codes for every installation.

Final Inspection & Approval:
Property owners must inspect and approve all installations before they are put into use.
